

Timestamp	Do you use technology to track what is happening in your region?	If so, which app or website is your preferred?	Which of these emergencies are most important to you?	What features would you expect from an emergency alert system?	How would you prefer to be notified?	Why would you prefer this notification method over others?	Apart from weather, traffic, etc what other alerts would you like the State of CA to notify you on?
2/22/2017 14:07:55	Yes	Waze	Weather hazards: temperature, precipitation, flooding, high winds, high waves and wildfire, Earthquakes or Tornadoes	Size of earthquake radius [1]	SMS / Text Message [2]	Lowest impact [3]	Road closures going up the mountain [4]
2/22/2017 14:10:44	Yes	local news app. Msnbc Bay area	Weather hazards: temperature, precipitation, flooding, high winds, high waves and wildfire, Earthquakes or Tornadoes	Alerts that aren't distracting and alerts that actually work	Push Notification on my phone	Least invasive	None
2/23/2017 1:02:16	No	None currently	Weather hazards: temperature, precipitation, flooding, high winds, high waves and wildfire, Tsunami, Earthquakes or Tornadoes	Timely information, succinct/efficient and non-invasive delivery	SMS / Text Message	More likely to notice in a timely manner	Election days, manhunts, bridge closures in my area
2/23/2017 15:29:09	Yes	I get amber and storm/flood alerts. those seem good	Weather hazards: temperature, precipitation, flooding, high winds, high waves and wildfire, Earthquakes or Tornadoes	Besides telling me when shit happens, recommend a course of action, maybe have a work sheet that prompts people to plan their emergency plan before one happens, with reminders saying "you're 80% done with your emergency plan, now send it to your relatives and buy batteries to be 100% done..."	SMS / Text Message	I get sms notifications, I turn other stuff off.	emergencies only. although traffic laws would be a great to be notified of...not to mention there's generally some massive error rate in getting the word out about new laws.
2/23/2017 23:36:43	Yes	google maps	Tsunami, Earthquakes or Tornadoes	fast, easy	SMS / Text Message	instantant, easy.	none, not sure
2/24/2017 12:33:01	No	Weather	Weather hazards: temperature, precipitation, flooding, high winds, high waves and wildfire, Earthquakes or Tornadoes	What areas to avoid and where to find safety	Push Notification on my phone	Fastest	In laws
